GLASS BLOWERS.

Further Details About the Impending Strike.

Important Meetings Held—What a Prominent Workman Says—Why the Glass Blowers Withheld From the Knights of Labor—The Number of Assemblies and Their Wealth.

PITTSBURG, PA., Aug. 23.—After a suspension since the 1st of July, work has been resumed in all the flint-glass factories of this vicinity. This is an evidence that a satisfactory arrangement concerning wages has been made, and that for another year there will be no trouble in this branch of the trade. The hollow-ware and window-glass factories are still idle, however, and the indications are that a protracted lock-out will be inaugurated in these trades next month, instead of a resumption of work. Both sides are trying to keep everything to themselves, but it is known that the manufacturers insist on a heavy reduction in wages, and that the workmen refuse to accept any reduction. One of the officials in an interview said:

"I expect a strike next month. We have been idle during the present shut down for nearly two months, but a recent investigation of our financial condition shows we are able to do without work for one year. This we will do rather than accept any reduction whatever. We can not start on September 1 even if the manufacturers do grant our demands, as no fires have been lighted as yet. The window manufacturers have determined to postpone their start up until September 17, and as they generally make hollow ware they will expect to start both at the same time."

The chimney glass blowers held a meeting and, to the number of 178, cut loose from the Knights of Labor. Representatives of the gashers were present and pledged the similar course. The chimney men, working in Pittsburgh proper, seceded from the Knights of Labor six months ago. The pressers also seceded from the Knights of Labor. The gashers will meet next Sunday afternoon and with their membership, 160, withdraw from the Knights of Labor, and after the new assembly the following Sunday. The reason assigned for the withdrawal is that the Knights of Labor have been of no use to the glassworkers. In a strike of twenty-two months, beginning in 1877, the 900 pressers and chimney-men only got \$400 from the organization. Three months before the inauguration of the strike the American Flint Glass Association was formed, with eighteen assemblies, and in that time the strikers received \$18,000. Now there are forty-two assemblies in the United States and Canada.

THE TORNADO.

Extent of the Horror Greatly Increasing.

ST. PAUL, MINN., Aug. 23.—It is feared that the hail concerning Tuesday night's cyclone at Rochester and other points has not yet been told. Fifty dead bodies have been recovered at Rochester. Over 100 are missing.

The latest from the scene says the telegraph poles are leveled to the ground and it is impossible to get full details at present. It is believed, however, that the entire country between Rochester and Ajunabroto was swept over and that the dead will reach into the hundreds. In Dodge Center, W. Donovan's child was killed and every member of ten families injured. Mrs. Helen Beck, of Dodge county, was taken up by the storm while in a field and has not been heard from.

Mr. Berg was killed and his farm buildings blown away. A young lady visiting Van Franche was fatally injured.

The town of Salem lay in the track of the cyclone, southwest of here, and is said to be wiped out. At Rochester, a thousand people are homeless and dependant upon the charities of others for shelter and the necessities of life.

The resources and sympathies of the citizens are taxed to the utmost, and help is badly needed from abroad. An immediate hospital has been made in Rome's Hall, and about forty sufferers are being cared for by a voluntary corps of nurses. The damage in the city can not be less than \$500,000.

DODGE CENTER, MINN., Aug. 23.—The crops in the path of the cyclone two miles south of here were all destroyed, and heavy damage was done to buildings. A man named H. Elbrecht and wife were working in a field when they saw the storm and clung to each other. When struck they were knocked senseless and she was blown to a considerable distance. She was found in a horribly mutilated condition, one arm being twisted off and the other nearly so. A number of other persons were less badly injured.

WINONA, MINN., Aug. 23.—The cyclone struck here at 7 o'clock p. m. The depot was unroofed and badly wrecked. The engine house is a total wreck, the covered bridge near town is gone, a number of cars in the yard were completely smashed. Holton's elevator is a total wreck, and half of it obstructs the main railroad track; the streets are filled with trees and fragments of buildings. Five cars and an engine were derailed at Zumbrota Junction; fireman Wm. Higgins jumped from the cars and is buried under the wreck.

Killed With a Chisel.

WADESBORO, N. C., Aug. 23.—Two negro laborers here, Paul Means and Sherman Lindsay, quarrelled and agreed to go to a large yard near by and fight it out. They went to the place, but while they stood ten feet apart Means drew from under his coat a heavy chisel and threw it at Lindsay. It struck him in the neck, inflicting a frightful wound and severing the jugular vein. Death ensued in five minutes. Means fled at once.

THE IOWA TRAGEDY.

Public Sympathy Entirely with the Father.

WATERLOO, IOWA, Aug. 23.—The excitement over the shooting of the negro Herson by Nathan Codner, father of the outraged girl, has about subsided, and public sympathy seems to be entirely in the latter's favor. Codner is in jail in this city, but is in an excited state of mind, almost bordering upon insanity, and can not talk coherently on the subject. The bullet struck Herson about an inch to the left of the spinal column, between the fourth and fifth dorsal vertebrae. The coroner's jury found a verdict in accordance with the facts, and Codner was held on the coroner's warrant. Since the shooting it has been developed that Codner did not know the full extent of the injury done his daughter until a short time before the shooting. He was not allowed in the court-room during the latter part of the taking of the testimony, but was present during the argument, and it was then made known to him that Herson had said before he left Parkersburg that he was going to Cedar Falls to make a "mash" on Melissa Codner, and that after he reached Parkersburg and before he was arrested he made his boasts that he had succeeded in robbing her of her virtue, but said that he had to work hard before he could accomplish his purpose. A letter was also produced written to Sarah Codner by George stating that she must get some other girl if she could not get Melissa. Herson had hitherto borne a bad reputation. While at Mason City, about ten years ago, he induced his washerwoman's daughter to run away to Clear Lake with him, and when he came back he escaped lynching only by jumping through the back window as the men with a rope came in the front door.

ATTEMPTED BLACKMAIL.

Unsuccessful Effort of a Pretty, But Unprincipled Widow.

BALTIMORE, Aug. 23.—Quite a sensation was occasioned when it became known that an attempt had been made by a young widow well connected to extort \$500 from John Henry Keene, a prominent lawyer and a gentleman of large means. A few weeks ago the young woman, who is a daughter of John Cole, a retired merchant, called at Keene's office and secured his services to endeavor to obtain a share of her late husband's estate, which she alleges is kept from her by her husband's children by a former wife. Keene had several interviews with her, but always in the presence of his law student. A few days ago she called and demanded \$500, and remarked: "If you don't give me the money I will create a scandal." Keene delayed matters until the next day, and in the meantime informed the police of the case. Detectives were detailed at Keene's office, and when the young woman called for the money they overheard the conversation, and at the proper time appeared, made themselves known, and thus blocked the game. Keene refused to prosecute, and thus the woman escaped punishment. She is young and handsome, and, the police say, has been successful in other instances. The affair has been suppressed in the papers here, and only became known by accident. Keene is a widower, and his wife was a daughter of Cooke, the banker, of New York. She died a few months ago at Saratoga.

Shocking Assault on a Child.

ST. LOUIS, Aug. 23.—Charles Hughes, aged twenty-three years, living on Third street, near Terren, has been arrested for committing an indecent assault on a seven-year-old girl at his mother's house. Hughes is considered to be mentally deranged. His neighbors are highly incensed at the affair, and there has been some talk of violence. Hughes was always treated kindly by everybody on account of his unfortunate condition, but his action has made him many enemies.

An Insane Man's Vagaries.

AMSTERDAM, Aug. 23.—John Weldon, who appeared on the streets here shouting wildly that a gang of desperadoes was pursuing him, determined on taking his life, was pronounced insane. He says the gang drove him from his home in Onida Castle, and that the only place of safety he found was in St. Mary's Church here.

A Government Telegraph.

WASHINGTON, Aug. 23.—Friends of Senator Edmunds, who have discussed the matter of a Government telegraph with him, state that he is thoroughly in favor of such a project, and state that he will at the next session of Congress introduce a bill having that object in view, and ask for its immediate consideration.

A Bad Worm.

DALLAS, TEX., Aug. 23.—There is some alarm in the eastern portion of the county over the appearance in that quarter of a peculiar worm, about an inch in length when grown, and of a brown color. It feeds on all sorts of vegetation and is said to be damaging the cotton especially.

Struck By an Unknown Man.

PROVIDENCE, Aug. 23.—Albert Horton, superintendent of Dannel's print works at Pawtucket, was stabbed while standing in the door of his residence by an unknown man who pursued three young Swedes into the yard to rob them. Horton was called to the door by the outcry.

Physical Manifestations in Mexico.

WASHINGTON, Aug. 23.—Early in August there was a shower of thousands of fishes in Monte Morels and an earthquake at Patekca, causing twenty deaths and the destruction of thirty houses.

Indiana Socialists.

INDIANAPOLIS, IND., Aug. 23.—The first socialistic organization in the State, under the form of law at least, has filed articles of association. It is mutually beneficial in its nature and is capitalized at \$5,000.

MOURNED AS DEAD

The Return to His Parents of a Long Lost Son.

A Tale of Hardships—The Strange Disappearance of James Rothermel—Evidence that Indicated His Death—His Sudden Return to His Astonished Parents.

HAMBURG, PA., Aug. 23.—The strange disappearance of James Rothermel, of this county, has just been explained. Last spring he left for the West, supplied with abundant funds by his father, Jacob Rothermel, who is one of the wealthiest farmers in Perry township. The young man visited various parts of the West, and after sojourning several months in Iowa became sick with fever. While in a half delirious state he attempted to return home, and proceeded as far as Chicago. Here he got on the wrong train and was carried into the wilds of Michigan. He lost his ticket and money in the cars at a point more than a hundred miles north of Chicago, and was put off the cars by the conductor. He remained in the pine forest for seven days before he was able to effect his way to a settlement, having meanwhile satisfied his hunger with roots and berries. His clothing was torn by coming in contact with brambles and briars, and he was a pitiable object. Having escaped from the forest he undertook to walk home, and tramped across the country in this forlorn condition until he finally arrived in Venango county this State, completely broken down in health and spirits. His clothing was a mass of rags, his feet were sore and painful, and he was partially demented by reason of his sufferings. He was committed by a magistrate to the almshouse, where he received medical treatment. After regaining sufficient strength he last Friday wrote to his father, stating his whereabouts, and requesting that \$30 be sent him to enable him to return home. The father instantly straightway sent another son, who arrived on Sunday at the almshouse, and there was a happy meeting between the brothers. The long-lost son, who was mourned as dead on account of his trunk having been received soon after it was expressed from Chicago and his son having failed to appear, is now at home with his parents, and there was a great jollification at the Rothermel mansion.

INFESTED WITH THIEVES

The Affliction of a Quiet Little Wisconsin Village.

STURGEON BAY, WIS., Aug. 23.—The quiet little village of Bay View, just across the bay, is at the mercy of a gang of thieves who are prowling about back yards during the still hours of the night. They have either entered, or attempted to enter nearly every house in town, but as far as known they have not succeeded in carrying anything away. Thursday a number of the citizens formed themselves into a vigilance committee and during the night secreted themselves in various places with a view of capturing the rascals if possible. About midnight several suspicious characters were seen prowling about the grounds and residence of Hon. Joseph Harris. The signal agreed upon by the citizens was given, but the fellows succeeded in making good their escape in the words close by. They were ordered to stop, and paying no attention to the command several shots were fired at their retreating forms. It is thought that there are five persons in the gang, and that they are the same ones who have been operating in this city.

A FOREIGN FORGER.

Disguised As An Emigrant He Is Promptly Collared.

NEW YORK, Aug. 23.—Johannes Wiig, a Norwegian, just arrived here in the guise of an emigrant, was before United States Commissioner Denel charged by Acting Consul General Rawn, of Sweden, with being a fugitive from justice. Wiig arrived here on the steamer Alaska, and was arrested by Deputy Marshal Bernhard upon a cable description. For certain prudential reasons no mention was made of Wiig's arrest. He was confidential clerk and cashier of the mercantile house of W. Werke, in Ringsacker, Hedemarken, Norway. He is charged with forging paper to the amount of 5,000 crowns on the Bank of Lillehammer, and also with forging his employer's name to two surety bonds, one for 2,000 crowns and the other for 1,000 crowns. Some of the forged paper was found in his possession. Wiig confesses his crime and will probably waive examination and return to his native land, thus saving the United States and the Government of Sweden considerable expense.

RESCUED FROM DEATH.

Narrow Escape from a Burning Boarding House.

LOWELL, MASS., Aug. 23.—A two-story house on the Mammoth road, two miles from the city, was burned with its contents, including \$200 in cash. It was occupied by the family of Thomas Riley, who had several female boarders, all in delicate condition, in the house. When the fire broke out Mrs. Riley was lying quite ill in the upper story with a babe only four days old at her side. With the greatest difficulty she was carried down stairs, taken out through a window and then placed upon a mattress, upon which she was borne to a neighbor's house. Both mother and child nearly died from exposure and fright. The other women in the house were rescued with difficulty. One girl, while trying to drag her trunk down stairs, was thrown down and held in such a position that she could not release herself till help arrived. Her hands and arms were horrible burned. Only buckets were available against the flames, which died out when there was nothing left to burn. The people lost everything and are uninsured.

THE OYSTER TRADE.

Indications of an Unusually Fine Season.

NEW YORK, Aug. 23.—Preparations for an unusually good business are making by oyster growers, dealers and shippers. Examinations of all the oyster beds along the north and south shores of Long Island show, it is said, that the crop will be uncommonly large, and that the oysters will be better quality than for many seasons past. Oysters which have been taken up appear to have grown twice as much as those inspected at this time last year, and they are plump and solid. The demand for Shrewsbury's has already begun. The Blue Points, which were a failure last year, promise to be fine and abundant this year. In Rockaway Bay many oyster beds have been destroyed by sludge acid from the rendering factories on Barren Island, and the owners of oyster beds in Hempstead Harbor say that many of the beds in those waters have been destroyed by the refuse from the starch factory at Glen Cove. The prospect for the export trade is better than for many years. Large orders have been received from agents in Europe, and it is probable that many oysters will be forwarded to California.

UNSAVORY FITZGERALD.

The Notorious "Pension Agent" Again in Trouble.

WASHINGTON, Aug. 23.—Jenkins Fitzgerald, the notorious pension sharp, has again been disbarred at the pension office. The trouble this time was a too ingenious device for the collection of illegal fees. After getting all he legally could out of his clients, he would send them formidable looking packages with a "C. O. D." charge of \$10 and express fees. The pensioner would suppose that the package contained his money, and pay the amount demanded, and find nothing inside except a dunning letter. Fitzgerald seems to have done this on a considerable scale for numerous complaints have come in. When hauled up for his performances the fellow had the effrontery to insist that it was a legitimate resource. It was not so regarded at the pension office, and he has once more been debarred.

A MYSTERY SOLVED.

A Dead Body Tells Its Own Tale of Font Play.

BUFFALO, N. Y., Aug. 23.—The body of the man found recently in a field near West Valley, on the line of the Rochester and Pittsburgh Railroad, has been identified as that of Nelson Olin, keeper of a boarding shanty. All the evidences indicate that he was foully murdered, his body being perforated with bullet holes and his skull crushed. Olin had started for a neighboring town to purchase supplies and had with him \$250. He was a Swede, and as he did not return it was thought he had possibly gone back to his native land. His watch and money were missing.

William Barry and Charles Miller were arrested—Barry at West Valley and Miller at Jamestown—for the murder of Olin. They had both boarded with him, and Miller, it is alleged, had quarrelled with him.

MORE RAGS.

Information Received of Egyptian Infection.

WASHINGTON, D. C., Aug. 23.—Advice received by the Marine Hospital service from its agents in England state that 473 bales of cotton rags from Egypt are piled in a Liverpool warehouse awaiting shipment to Boston, Mass. Masters of vessels bound for ports in the United States are becoming more careful as to the character of their cargoes, and these rags are the accumulation of several weeks. It has become widely diffused among foreign ship-owners that the quarantine regulations of this country are very strict, and are being rigidly enforced, and that steamers having anything aboard suspected of being contraband are liable to lengthy detention.

INSANE FROM CRUELTY

Why a Preacher's Wife Committed Suicide.

ERIE, PA., Aug. 23.—The excitement occasioned by the attempted suicide of the wife of the Rev. H. M. Moyer, of Union, has been intensified by reports that the act was not committed under religious frenzy, as given out by her husband, but that she had been driven insane by cruelty and domestic infelicity. Rev. Mr. Moyer is said to have been getting a living by horse-trading instead of preaching. He said that his wife has been as mad as a March hare for ten years, through unjustifiable jealousy, and that he has borne reproach and suspicion silently to conceal her insanity. He says he trades horses for a living because her jealousy made it unsafe for him to continue in the pulpit. The lady is now bound hand and foot, awaiting conveyance to an asylum. She says she did it on account of her husband's sinful life.

A Peculiar Will Case.

CHICAGO, Aug. 23.—Mrs. Julia Newberry, dying in 1876, left an estate of \$100,000 to her mother on condition that after her mother's death it should be used in charities or the founding an art gallery in Chicago. Mrs. Newberry refused to qualify under the will, and claimed the estate as heir-at-law. The Circuit Court, on the chancery side, has decided that no trust could be imposed upon the mother's estate so far as the charities clause is concerned, as it was too indefinite, but if the case was tried at law the art gallery clause might be enforced owing to the failure of Mrs. Newberry to accept under the will.

She Found Him at Last.

NEW HAVEN, Aug. 23.—Catherine Hothergill discovered a man under her bed when she went to her room to retire. She ran out screaming and aroused the other inmates of the house. The man reached the street, but was pursued and caught. He proved to be an old boarder.

WAR AND WARTALK

Full Details of the French Battle in Anam.

Is War Threatened Between Germany and France?—Significance of the North German Gazette Article—It Causes Consternation All Over Europe—Belief that Another Franco-German War is Threatened.

LONDON, Aug. 23.—The Times correspondent at Hong Kong, referring to the movement of the French in Tonquin, says the enemy were mainly composed of Chinese armed with Remington rifles. General Bouet commanded the left column of the French troops. It is believed the enemy's loss was small. The French doctors complain of want of medicine and stores. The operations of the French have been stopped for the present, the number of troops being insufficient to attack Son-tay and Bac-ninh, which are the strongest positions in the delta. The repulse of the French disheartened them and encouraged the enemy. Four thousand native Christians are being armed.

The Standard's correspondent at Hanoi adds: It is generally admitted that the French will require a force of 10,000 men to be able to cope with the enemy successfully. The number of gunboats is also inadequate. Five hundred coolies who accompanied the French column as carriers fled at the first shot. It is stated the enemy has entrenchments, one behind the other, for the whole twenty-five miles between Hanoi and Son-tay, but it is thought the floods have destroyed many.

The black flags have been strongly re-enforced from Yun Man. No Anamese participates in the fighting.

The Times says the capture of Hai Duong is of some importance, as it gives the French complete command of the Songhai Canal, which is the most convenient approach to Hanoi.

GERMANY.

LONDON, Aug. 23.—The Times commenting on the Berlin North German Gazette's article referring to the attacks of the French journals on Germany, and declaring that France alone threatens the peace of Europe, says the irritation shown by the latter paper can not be explained by the reason assigned, as the French press upon the whole has been very moderate in regard to Germany.

The article is rather an expression of general impatience at the conduct of the French, and ought to convince them that their expeditions in various parts of the world do not add in the smallest degree to their influence in Europe.

The article of the North German Gazette startled Paris, alarmed Europe, and causes prices on the Bourses of Paris, Vienna and Berlin to fall.

The press everywhere express surprise as the Gazette's attack on France, and wonder as to what its object is. French papers repeat the charges contained in the article, and intimate that France is better prepared now to say that Bismarck is seeking a pretext for a quarrel or for the imposition of fresh army burdens. The Austrian press asks if the article means war.

A BLOODY RECORD.

A Glimpse at a North Carolina Court Docket.

STATESVILLE, N. C., Aug. 23.—At the Superior Court, in session here, true bills for murder have been found against Fleet Martin for the killing of Wm. Reeves, Jr. H. C. Redman and Alex. Redman, for the killing of John Redman, after a trivial dispute about a land boundary. Next week the Clark Bruce murder case will be taken up. The case against Wm. Pierce for killing his father-in-law, J. A. Moore, is yet to be considered by the Grand Jury. The negroes Bettie Harris, colored, charged with killing her husband, was taking up. The jury returned "not a true bill," and she was discharged.

The Wife Murder and Suicide Epl. demic Continues.

NEW YORK, Aug. 23.—Elizabeth Cameron, twenty-eight years old, was shot through the head and instantly killed in her apartments, No. 466 Eighth avenue, by George Beattie, forty-four years old. After killing her Beattie shot himself through the heart and fell dead across her body. The cause of the murder and suicide is unknown.

Malaria at the Seaside.

PORTSMOUTH, AUG. 23.—Malaria has appeared at several New Hampshire beaches and many people are ill. Mr. Lewis, a wealthy Philadelphian, died at his cottage of malignant typhoid fever. His servants and family are ill. Defective drainage is supposed to be the cause of the trouble. Mrs. Ward, a hotel guest at Rye Beach, also died.

The Kansas Storm.

LAWRENCE, KAN., Aug. 23.—The storm that passed over here did considerable damage outside of the city. Reports come in of a number of houses and buildings being struck by lightning in the county. At Lenwood the storm was the severest known in years. Esquire Shaffer lost \$1,500 worth of wheat that was struck by lightning and burned.

New York Pickles.

NEW YORK, Aug. 23.—It is estimated that the pickle crop of Westchester county amounts to 100,000,000 pickles annually. Pickles from Westchester command a better market than from any other locality in the State; but owing to the recent drought and the cool nights the crop has been nearly ruined. Farmers complain that instead of gathering from 120,000 to 150,000 per acre, they are picking less than 60,000 of a very inferior quality. The recent rains will not be a benefit, as more than one-third of the hills of cucumbers are dead.

An amusing condition of affairs has sprung up in Iowa. The Republicans have nominated an accomplished gentleman for superintendent of public schools, and the Democrats have nominated his wife. If it does not result in a family row the candidates are fortunate. In any event the office will be kept in the family that is provided the family does not disintegrate before election day.

The treasury officials are very much puzzled at the appearance of another counterfeit coin which is likely to deceive even the average expert. It is a five-dollar gold piece, and is worth \$4.33 in gold. The counterfeit is said to be the best ever made, and its perfection has created the grave suspicion that the government dies have been tampered with or an impression taken from them. The department officials are keeping the matter extremely quiet in the hope of working up a clue to the counterfeiters.

A DESPATCH from France gives the following as having occurred at Paris: An aeronaut named Gratien, while holding a rope attached to a balloon, was dragged up by the balloon breaking from its fastenings and carried a distance of four miles, the rope forming a loop about two of his fingers and cutting them to the bone. Mlle. Albertine, who occupied the car of the balloon, fainted with fright. Eventually the balloon dropped in a thicket of thorns, and poor Gratien had his clothes and skin stripped from his body. Some peasants cut the rope and saved his life. He never lost consciousness during the terrible trip.

NIGHT draws her sable mantle 'round,

Is wafted from afar,
And right next door a teething babe
Is howling for its mar,
While o'er the way a loud-voiced maid
Is singing operar.

Bracken Association.

MILLERSBURG, Ky., Aug. 23, 1883.
The Bracken Association of United Baptists met this morning in the Christian Church in this place.
Quite a number of visitors are present. The introductory sermon was preached by Rev. R. B. Garrett, of Carlisle, from the text: "I magnify my office. The sermon was an able exposition of the duties of the ministry in relation to the world, their churches and to each other. The balance of the day was devoted to organization, reading letters and business of little interest to the general public.
The following officers were elected for one year: R. B. Yancey, of Mayslick, Moderator; C. J. Hall, Maysville, Clerk; R. B. Garrett, Carlisle, Treasurer.
Rev. W. M. Pratt, of Lexington, will preach to-night, and be followed by Rev. C. H. Parrish, colored, of Louisville, on "Education of Colored Ministry."
We note the presence of Rev. W. M. Pratt, S. L. Helen, J. S. Kirby, J. A. French, Prof. Rucker, of Georgetown.

Mrs. C. M. Dodson will leave next Monday to visit her relatives in Virginia.

Miss Delia Wood will leave for Min-don, La., next Tuesday to be absent all the winter.

Mr. Thomas Stockton, who has been visiting friends at Georgetown and Lexington, has returned home.

Mrs. Thomas Dickson died at the residence of Mr. W. H. Wallingford, in East Maysville, at an early hour this morning.

Mr. W. A. Parker, the genial Secretary of the Bourbon county fair, is in the city to-day, looking after the interest of that institution, and called to see the BULLETIN.

Miss Maggie Redmond, of Covington, who has been visiting her uncle, Mr. James Redmond, of this city, returned home Thursday, accompanied by her cousin, Miss Marcellia Redmond.

It was a very affecting scene, and was witnessed by several citizens last night at a residence on Second street. They were a young but very devoted couple, and were "tearing themselves from each other" for an unknown period; she burst into a "how-can-I-leave-you" sort of cry, and with tears in his eyes and a choked voice he said "farewell." Then the lookers-on helped them out by singing, with feeling, "Good-bye, My Lover, Good-bye." How sad!

The ice company expect to be able to deliver ice to their customers in this city probably on Saturday next, and certainly on the following Monday. To give the enterprise a boom everybody in the city should arrange to have ice left at their respective residences. All who wish to see enterprises of this kind prosper in Maysville will certainly do so.

The street cars continue to be generously used. The have been for several days past carrying about a thousand persons each day. There seems to be no doubt that it is going to be a successful enterprise, thanks to the good feeling the citizens of Maysville have manifested toward it. Now let them show the same good feeling in respect to the ice factory.

An exchange says: People go to a watering place, take a bath, and feel better. At home it rarely occurs to them to benefit themselves in that way. They go to Hot Springs, quit drinking, live like christians and grow young. They will not do that much for themselves at home, and the springs get the credit for it.

The fair company has doubled the capacity of floral hall and will therefore be able to assign a limited space to such of the Maysville merchant as may wish to make displays of their stocks, and to others for a similar purpose. It is an opportunity that our business men ought to take advantage of.

SENATOR WADE HAMPTON, who is in New York, expresses the opinion that it is too soon to speculate about the next Presidential campaign. Who the candidates will be no man can say; and as for the issues, Senator Hampton says they will be formed when the next Congress meets.

THERE are several reasons why the Equitable life takes the lead of all others doing business in the United States. One reason is the promptness with which losses are paid, the society not taking the usual sixty to ninety days time. This is the rule and not an exception. Below is a sample. Any person desiring life insurance would do well to apply to Jos. F. Brodriek, Agent, Maysville, Ky.:

CATTLE DISEASE.

A Curious Outbreak Reported in Connecticut.

WASHINGTON, Aug. 23.—The Treasury Department has received a letter from Dr. Thayer, of the United States Cattle Commission, in which he reports an outbreak of lung plague among cattle at Salem, Connecticut. The disease first appeared among cattle owned by Mr. H. E. Williams, of that place, and it is thought it was brought there by a cow from a herd recently imported to this country.

The herds infected are in quarantine by order of the State Commission, who will do their best to prevent the spread of the disease.

TEXAS LUMBERMEN.

An Important Organization Just Formed.

WACO, TEXAS, Aug. 23.—The Lumber Dealers' Convention, met with delegates from all parts of the State. The object of the Convention was the organization of a State association from which millmen will be excluded; also arrange for uniformity in the price of lumber. The movement is important, inasmuch as this branch of trade has assumed gigantic proportions in Texas, already one firm represented in the Convention owning and operating yards at twenty-six different points in the State. Exporters were excluded from the deliberations.

The Boston Chinese Decision Not Liked.

SAN FRANCISCO, Aug. 23.—Judge Nelson's Boston Chinese decision creates a sensation here. The interpretation of the Boston court is not considered as binding here. Hopes are expressed that the question will be carried to the Supreme Court of the United States; that under no circumstances will the yellow flood again be permitted to stream into this port.

DRY GOODS.

AYER'S Hair Vigor

restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness often, though not always, cured. It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the VIGOR is unequalled; it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume.

MR. C. P. BRICHER writes from Kirby, O., July 3, 1882: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now a full head of hair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

J. W. BOWEN, proprietor of the McArthur (Ohio) Enquirer, says: "AYER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The Vigor is also a sure cure for dandruff. Not within my knowledge has the preparation ever failed to give entire satisfaction."

MR. ANGUS FAIRBAIN, leader of the celebrated "Fairbairn Family" of Scottish Vocalists, writes from Boston, Mass., Feb. 6, 1880: "Ever since my hair began to give silvery evidence of the change which fleeting time procureth, I have used AYER'S HAIR VIGOR, and so have been able to maintain an appearance of youthfulness—a matter of considerable consequence to ministers, orators, actors, and in fact every one who lives in the eyes of the public."

MRS. O. A. PRESCOTT, writing from 18 Elm St., Charlestown, Mass., April 14, 1882, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR VIGOR the falling stopped and a new growth commenced, and in about a month my head was completely covered with short hair. It has continued to grow, and is now as good as before it fell. I regularly used but one bottle of the Vigor, but now use it occasionally as a dressing."

We have hundreds of similar testimonials to the efficacy of AYER'S HAIR VIGOR. It needs but a trial to convince the most skeptical of its value.

PREPARED BY DR. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.
